Ashwood and Espresso Legacy Collection
Impression Rail Express Modern Top Rail

COVER: Ashwood and Espresso Legacy Collection
Impression Rail Express Modern Top Rail

TIMBER + TECH

At TimberTech, our goal is to help our customers live their best lives outdoors. To do that, we deliver a superior product that embodies an unrivaled combination of Timber + Tech. Our name says it all. "Timber" captures the beauty, textures, and colors of real wood. "Tech" defines how our decking is engineered to perform far better than wood (or any other composite product), to be low maintenance and high performance—and give you a lifetime of enjoyment.

IN SHORT? TIMBERTECH IS

EVERYTHING WOOD SHOULD BE™

TimberTech®

Timber: The Most Realistic Wood Looks

Designed to resemble the looks of your clients' favorite wood species and types, **TimberTech delivers the most natural-looking composite decking** — and the largest selection of colors and textures to suit every project.

Tech: Engineered for Performance

With innovative materials technology, our decking **resists fading and staining** — and **won't splinter, peel, crack, or rot.** So your deck will look and perform beautifully for decades with little to no maintenance required. That means you can spend more time with the ones you love — and less time (and money) working on your deck.

Planet: Made Sustainably

Made from up to 80% recycled content — utilizing landfill-bound waste such as milk jugs, plastic bags and even post-industrial scrap like vinyl siding — TimberTech decking is an environmentally friendly choice

TimberTech®

ADVANCED PVC

BY AZEK®

For clients who want the best performance coupled with the most realistic wood looks, choose TimberTech Advanced PVC Decking. With innovative advanced materials science, our PVC boards deliver superior benefits to anything else in the marketplace.

FADE & STAIN LIMITED 50 YEAR WARRANTY

RECYCLED MATERIAL MADE IN THE USA

Coastline Vintage Collection
Classic Composite Series Premier Rail

Although TimberTech PVC Decking is cooler to the touch than many other deck board products, all decking products will get hot in the sun. Additionally, the darker the decking color, the hotter it will feel. For hotter climates, consider choosing a lighter color.
VINTAGE COLLECTION®

Exotic Hardwood Aesthetic

Give your clients the look of sought-after premium hardwoods like Ipe, mahogany, and teak with the Vintage Collection. With a refined wire-brushed finish and multi-tonal color blending with highlights and lowlights, the Vintage Collection features a truly authentic wood look.

COASTLINE®	ENGLISH WALNUT®	MAHOGANY
WEATHERED TEAK®	DARK HICKORY	CYPRESS®

CLASS A FLAME SPREAD INDEX & WUI-COMPLIANT

For Homes in Fire Zones

With a Class A Flame Spread Index rating and WUI compliance, the Vintage Collection is the best choice for homes in fire zones.

*TimberTech Prime+, Prime, and Premier Collections are covered by a 25-Year Limited Product Warranty and a 25-Year Fade & Stain Limited Warranty.
*The proprietary capping on the Prime+, Prime, and Premier Collections does not feature Mold Guard Technology.

TIMBERTECH® FASTENERS

The best kind of decking deserves the best quality fasteners. We offer several fastening options to suit different install preferences.

TOPLOC® FOR ADVANCED PVC

Top-down, color-matched decking fasteners.

- Top-down, stainless steel fasteners with hand-painted, color-matched heads to complement TimberTech Advanced PVC colors
- 305-grade stainless steel screws, ACQ-approved, with TORX® ttap® drive for wobble-free installation
- Compatible with all TimberTech Advanced PVC boards

FUSIONLOC®

Collated stainless steel clips provide three points of board-to-joist connection for a secure hold and a hidden appearance.

- Collated hidden fastener system engineered for strength and speed of installation
- Offers a pneumatic installation with the FastenMaster FiveShot Tool or manual installation using the FUSIONLoc Hand Driven Guide
- Compatible with all TimberTech grooved boards

PRODUCT DESCRIPTION	TimberTech Model Number
FUSIONLOC FOR ADVANCED PVC & COMPOSITE	
FUSIONLoc 225 SF/Pkg (Pneumatic)	FLOC225

TimberTech®
R A I L I N G

The TimberTech Railing portfolio delivers enduringly beautiful designs as well as superior performance, whether choosing from our composite, PVC, or metal railing collections. Plus, lots of customization options mean creating a unique look is easily done.

LIMITED 25 YEAR WARRANTY

COMPOSITE RAILING

High-performance composite material protected by a polymer cap for impressive durability

- **Highly durable:** Won't crack, warp, split, or splinter
- **Moisture-resistant:** Protected from mold, mildew & rot
- **Resembles the look of painted wood**
- **Matte colors protected by 25-Year Fade & Stain Limited Warranty**

- **Low maintenance:** Never needs painting or staining
- **Made from up to 50% recycled material**
- **Offers the most customizations & styles**

Coastline Vintage Collection
Classic Composite Series Drink Rail with Cable Rail

METAL RAILING

Powder-coated aluminum for high-performance and corrosion resistance

- **Superior durability:** Resists fading, staining & scratching
- **Moisture-resistant:** Won't warp, rot, crack, or corrode
- **Narrower balusters for a less obstructed view** (up to 30% less than competitors)
- **Panelized railing system for a quick install** (no fastening of individual balusters)

- **Wrought-iron-inspired aesthetics**
- **Sleek top rail options with no visible hardware**
- **Low maintenance:** No sanding, staining, or sealing

Ashwood Legacy Collection
Impression Rail Express Drink Rail
PVC RAILING

Extruded PVC material with aluminum reinforcement for exceptional performance

- **Best moisture resistance & durability:** Won't crack, chip, rot, swell, or split
- **UV-resistant for color protection**
- **Lightweight for easier handling**
- **Paintable for a custom look,** but not required

- **Milled-wood-inspired designs**
- **Elevated design potential:** Crisp corners & tight, clean lines
- **Low maintenance:** No sanding, staining, or sealing

Pinnacle Rail with Square Web Decorative Panel

TIMBERTECH® COMPOSITE RAILING

Made from a mix of recycled wood and plastic fibers, our composite railing boasts superior durability to wood, while being extremely low maintenance. Your clients can explore stylish railing options from traditional milled-wood-inspired looks to sleek, contemporary designs to find the right fit for their space.

AZEK® Trim with Protective Film

AZEK Trim is cellular PVC with a crisp white semi-matte finish providing years of low maintenance for homeowners. To ensure that it looks as beautiful on your homes as it does when it leaves our facilities, our Classic AZEK Trim in Smooth and Woodgrain finish is now produced with a protective film.

AZEK Trim with protective film should be kept dry prior to installation. Do not expose film to direct sunlight for extended periods. Protective film can be removed prior to, during or immediately after installation.

AZEK TRIM FILM WILL BE ON THE FOLLOWING SMOOTH AND WOODGRAIN TRIM PRODUCTS

Classic AZEK Trim, Smooth and Woodgrain

AZEK Trim is a finishing touch that is far superior to wood. AZEK Trim is more durable and keeps its appearance longer with little maintenance. It is easily milled, routed, and heat formed for exquisite custom looks or curved applications. No staining or sealing needed. AZEK Trim is easily painted for personal styling.

AZEK Trim with PaintPro® Technology

No primer needed. Get work finished faster thanks to quicker drying time. PaintPro can be handled 30 minutes after painting. AZEK Trim with PaintPro technology has all the benefits of AZEK Classic Trim including being virtually impervious to moisture, but also adds the benefit of a superior paint bond that enhances long-term performance.

AZEK-to-Mill (ATM)

ATM's thick profile makes it an ideal material for fabrication. Its consistent density offers a superior product for milling operations.

Rabbeted Trim

With rabbeted edges, this one-piece trimboard is designed to ease siding installation and deliver a crisp facade.

Flange Slotted Trim

Typical window trims installed over a window nailing fin need to be shimmed or pulled back for the trim to lay flat. Flange Slotted Window Trim does not and is engineered to create consistent long-lasting window surrounds by removing the installation challenges created by windows installed with a nailing fin.

Cornerboards

With dirt-free seams that will not open, AZEK Cornerboards offer faster and more aesthetically pleasing installations to complement any home exterior.

Rabbeted Cornerboards

With rabbeted edges, this one-piece cornerboard is designed to make siding installations a breeze and help deliver a crisp facade with smooth outside edges and dirt-free seams.

Quick Corner®

The inner and outer quick corners are installed with hidden fasteners, completely eliminating the need for excessive face nailing and touch-up. It is also versatile enough to be used with multiple types of sidings.

J-Casing

J-Casing offers the most beautiful and seamless transition between your siding and trim. Engineered to reduce labor and save costs by eliminating paint and extra j-channel installs.

Universal Skirt Board

A two-piece skirt board with a two-sided trimboard (one side in smooth, the other in woodgrain) designed to assist with water management. Routed with a universal siding interface. Installation is quick and easy.

One-Piece Skirt Board

One-Piece Skirt Board is designed to eliminate purchasing and installing a separate starter strip, skirt board and flashing while helping drain water away from the main structure. Save time and cost without compromising aesthetics.

Integrated Drip Edge

Designed to assist with water management efforts around doors and windows. Comes in two pieces with a two-sided trimboard; one side in Smooth and the other in Woodgrain. Easy to install, the drip edge has an integrated nailing flange to reduce installation time and costs.

Beadboard

AZEK Beadboard is reversible with an edge and center bead on one side and a v-groove on the other. AZEK Beadboard (E & CB) is certified UL580 class 90 wind gust uplift-resistant, making it ideal for use in coastal areas.

Nickel Gap and Shiplap

AZEK Tongue-and Groove profiles, available in shiplap and reversible WP4/nickel gap form factors, offer enhanced design and installation flexibility.

Columns

AZEK Column Wrap profile allows for easy one-person installation, saving time and costs. Three connected panels and a fourth "locking" panel fit easily around a structural support with press fit seams and smooth, finished corners. AZEK Column Wrap is available in semi-matte white smooth finish.

New Soffit System

Available in two profiles, solid and vented. Both provide climate-resistant material for smooth, beautiful finishing to match any home exterior. Add the notched fascia and frieze board and you have an efficient, easy-to-install system.

MOULDING

CREATE STUNNING DETAILS THAT LAST. Backed by AZEK's promise of high-quality and lasting performance, AZEK Moulding will retain a like-new appearance despite the tests of time and weather. With over 30 different profiles to mix and match, you can customize any build with a distinctive look.

Industry-Leading Warranties

With decades in the business partnered with dedicated investments to research and development, AZEK makes it our mission to provide the best materials on the market. We guarantee the integrity of our siding, cladding, trim and moulding with a lifetime limited warranty that covers rotting, splitting, splintering, peeling, and warping. It is also easy to maintain and resistant to mold, mildew, and moisture damage. For more information, visit **AZEKexteriors.com/warranty.**

Contractor and Builder Information

AZEK® Siding, Cladding, Trim & Moulding should be installed using the same good building principles used to install wood trim and mouldings and in accordance with the local building codes and established installation guidelines. AZEK accepts no liability or responsibility for the improper installation of this product.

AZEK® Siding, Cladding, Trim & Moulding may not be suitable for every application and it is the sole responsibility of the installer to be sure that AZEK Siding, Cladding, Trim and Moulding are fit for the intended use. Since all installations are unique, it is also the installer's responsibility to determine specific requirements in regard to each application. AZEK recommends that all applications be reviewed by a licensed architect, engineer or local building official before installation.

AZEK Shingle Siding with PaintPro Technology

Made from a state-of-the-art proprietary engineered polymer, AZEK Shingle matches the attractive texture of cedar shingles while adding the performance and low-maintenance benefits of rot-proof PVC building materials. Leveraging our innovative new PaintPro Technology, AZEK Shingle offers a rapid dry time, superior paint adhesion, and a painted finish that lasts without needing touch-ups or frequent maintenance.

Straight Edge Shingle

Consistency with a dash of variety. Uniform horizontal lines with varied width tabs and keyways for the most natural-looking shingle to beautifully complement modern or classic exterior architecture.

Staggered Edge Shingle

Patterns with individual character, dimension, and diversity. Each random edge panel enhances the overall pattern for an amazing exterior picture. Beautiful variety in both vertical and horizontal lines.

AZEK EXTERIORS

AZEK Board and Batten

Both AZEK Sheet (board) and Trim Boards (batten strips) are made from moisture-resistant, premium cellular PVC engineered to endure. For a finished look that requires paint, use board and batten enhanced with AZEK PaintPro Technology. If a timeless white board and batten look is desired, use AZEK Classic that comes in a semi-matte white and requires no painting. See full listing of trim board and sheet sizes on pages 44-45.

TimberTech® Cladding by AZEK

The incredible realism of TimberTech Cladding comes from science and art. Proprietary color blending and texturing processes capture the look of exotic hardwoods, while the advanced PVC construction ensures decades of low-maintenance, enduring good looks. Color, board width, and open- and closed-joint profile options open unlimited design possibilities for both residential and commercial applications. Find details on the Vintage Collection on page 5.

Class A Flame Spread Index

TimberTech Cladding carries a Class A (the highest ranking) Flame Spread Index, meaning it is most likely to minimize the spread of an active flame. This can be especially important in multi-family construction or for building in fire-prone areas.

ADHESIVE & TOOLS	
Fill & Flex, 300 ml	AAD300MLFF
Nail Eraser, 0.5 oz	AADNEBLIS
Plastic Joining Biscuits	AADPJB
AZEK Adhesive Opening Order SKU	AAD14P00S

AZEK EXTERIORS

Fast Cure Adhesive

White, two-part, acrylic-based adhesive ideal for bonding AZEK to AZEK products. Also bonds PVC to wood, metal, brick, vinyl, glass, and other PVC. Work time 4-7 minutes at 70°F. Fully cures in 24 hours. Fills nail holes and gaps up to 1/8". Requires Qwik-Mixer for easy mixing and dispensing.

Slow Cure Adhesive

White, two-part, acrylic-based adhesive ideal for bonding AZEK to AZEK products. Also bonds PVC to wood, metal, brick, vinyl, glass and other PVC. Work time 15-25 minutes at 70°F. Fully cures in 24 hours. Fills nail holes and gaps up to 1/2". Requires Qwik-Mixer for easy mixing and dispensing.

Cellular PVC Cement

Clear, contact-style adhesive bonds with PVC in a fast working time. Ideal for securing joints. Creates a powerful and reliable material bond with no sanding or scraping required. Use AZEK Cellular PVC Cement to connect trim when a tight compression is required, such as connecting trim end-to-end (scarf joints) and at corners (miter joints).

Fill & Flex

Use for expansion and contraction joints on PVC trim boards. Seals gaps around windows and doors. Slow curing, one-part, urethane-based sealant with high level of flexibility and elongation to absorb expansion and contraction from heat or cold.

Adhesive Accessories

QWIK-MIXERS
50 ml: AAD50MLSQM,
220 ml: AAD220MLQM

Required dispenser for Fast Cure and Slow Cure AZEK Adhesive products. The resin and catalyst blend together as they travel down the tube to the applicator tip. Ensures 1:1 ratio mix and provides easy adhesive application. 24 per pack.

NAIL ERASER
Fills finish nail and brad holes in PVC trim board. Resists yellowing. .5oz

MANUAL 220 ML DISPENSING GUN
Its 26:1 mechanical advantage dispenses high and low viscosity adhesives with less user fatigue. Designed to maximize durability.

MANUAL 50 ML DISPENSING GUN
Made of highly engineered plastic to be lightweight and powerful. Easy loading breech provides secure cartridge fit.

CAULKING GUN ADAPTER
Tool adapter for caulking guns.

PLASTIC JOINING BISCUITS
Easy way to join, seal and finish PVC trim. 50 per pack.

CORTEX®

Save time, money, and labor costs with Cortex for AZEK Trim. The only concealed fastening system that quickly and easily fastens AZEK Trim to your building project comes with collated strips to make fastening up to 50% faster. The felt tip on the unique bit prevents surface marring while driving fasteners securely below the trim surface. Plugs made of AZEK Trim tap in for a clean, flush finish. No mess or fading over the life of the project. Plus, Cortex fasteners offer a stronger connection than nails.

Cortex Benefits

• Fast and easy; eliminates the need to caulk, sand and paint each nail hole

• Plugs made out of same AZEK material as trim; eliminates fading or streaking

• Can be painted

• Guaranteed corrosion resistance for life of the project; ACQ approved
